General Rules

Read Carefully this part. No exceptions will be made. Penalties will occur if these rules are not strictly fulfilled

RULES

Rules as follow.

1. This is a group coursework. Rules as follow.
2. Groupwork composition: as agreed with the course officer.
3. Deadline: **Please Submit your Group Coursework by the date set by the course officer.** Late deliveries will not be considered. Upload your coursework on the Moodle system.
4. You are solely responsible for managing group dynamics, as well as addressing any potential problems that may arise. No extensions will be granted for issues of this nature.
5. You have the flexibility to implement the project using Matlab, R, Python, VBA, Excel, the swap manager in Bloomberg, or Refinitiv. The latest versions of Matlab offer convenient functions that you are free to utilize for your project (please acknowledge their use). For instance, refer to the following link for useful functions: <http://it.mathworks.com/help/fininst/examples/fitting-interest-rate-curve-functions.html>. In Python you can use the Quantlib package. It also provides an Excel addin. Feel free to utilize the Excel sheets and Lambda functions introduced in class, while acknowledging and highlighting any enhancements or improvements you have made to them.
6. Whatever software you are going to use you have to disclose what is your own work and what is not.
7. The submission for this project should consist of a zipped folder containing all relevant files, along with a PDF report. In the report, provide a comprehensive description of your data, assumptions, methodology, and outcomes, excluding proofs of material covered in class.
8. Please submit the project as a zipped file via the web-learning system. The zipped file should be named with the surnames of the group members. Note that projects sent via email will not be considered. Ensure that the Excel file, the PDF report, and the Matlab folder are all named with the surnames of the group members.

9. Ensure that your written report is in .pdf format, as no other format will be accepted.
10. Ensure that both all files and your report are designed to be easily understandable for a non-expert reader.
11. In the report, provide a clear outline of the contributions made by each group member, specifying the tasks undertaken by each individual.
12. University rules regarding plagiarism will be enforced.
13. Questions related to the coursework sent via email will receive a public response on the web learning system.
14. Data are available via Moodle.
15. In your report, please adhere to the following structure, providing explicit details on your assumptions, data analysis, results, and references:
 - (a) **1. Introduction** Clearly state the general problem under consideration.
 - (b) **Product Description and Market Data**
 - Describe the financial product being priced.
 - Explain the chosen market data and justify the decision-making process.
 - Include details on methodologies such as bootstrapping procedures and interpolation methods.
 - (c) **Pricing Procedures and Model Justification**
 - Outline the procedures adopted for pricing.
 - Provide a rationale for the chosen pricing models.
 - (d) **Implementation of Pricing Procedure**
 - Explain how the pricing procedure was implemented.
 - Justify the chosen approach.
 - (e) **Results and Discussion**
 - Present the results obtained.
 - Discuss any issues encountered during the analysis.
 - (f) **Conclusions** Summarize the key findings and conclusions drawn from the analysis.
 - (g) **Bibliography** Include a bibliography with relevant references used in your coursework.
 - (h) **Acknowledgments** Clearly indicate the most relevant prompt or query you submitted to ChatGPT or similar software tools.

You may consult standard academic papers for style and formatting guidance.

16. The report must not exceed 15 pages, including tables and figures. Use A4 paper size, single spacing, and an 11-point font. While the use of $\text{\LaTeX}$ or Overleaf is strongly recommended for preparing the report, it is not mandatory.
17. *All figures and tables must be clearly labeled and accompanied by concise, descriptive captions. Each figure or table should be discussed in the text, explaining its content and highlighting its relevance to the analysis.*
18. All computations performed in spreadsheets or scripts must be fully transparent and replicable. If you rely on Bloomberg data, please describe the specific procedures used to retrieve and process the data to ensure reproducibility and clarity.
19. Please note that all submitted materials may be freely used by the course instructor for teaching and academic purposes.

Things To Do

QUESTION: PRICING A STRUCTURED PRODUCT

Task: Pricing and Hedging a Structured Bond

You are required to **price a structured bond** and **implement an appropriate hedging strategy**.

The detailed bond specifications are provided in the accompanying document. Assume a **trade date of November 5th, 2025**, with a **spot lag of two business days**.

You are expected to address the following questions:

1. Provide a concise overview of the bond's structure and key characteristics. Include a chart illustrating the coupon behavior as function of the reference rate. Explain how the coupon payoff can be replicated using standard interest rate instruments (e.g., floating rate notes (FRNs), fixed-coupon bonds, caps/floors, or digital options).
2. Construct a table summarizing the historical coupons paid to date, using reference rates from the Suomen Pankki website: https://www.suomenpankki.fi/en/Statistics/interest-rates/charts/korot_kuviot/euriborkorot_pv_chrt_en/. For each coupon period, include: Reset date, start and end dates (adjusted using the appropriate Business Day Convention and End-of-Month rule), reference rate, coupon rate, and coupon amount. Comment on your findings.
3. Bootstrap the term structure of interest rates using EURIBOR and interest rate swap (IRS) quotes. Clearly describe the methodology and interpolation technique adopted.
4. Analyze the best- and worst-case scenarios for the bondholder and compute the corresponding market values. Provide a detailed explanation of these scenarios.
5. Based on the decomposition described in item 1, price the option-like components of the bond using an interest rate model of your choice. Justify the model selection and calibrate it using caplet volatilities implied by 6-month EURIBOR cap quotes.
6. Explain how the risk-free bond value should be adjusted to incorporate Credit Valuation Adjustment (CVA). Compute the CVA under the assumption of potential issuer default, using the survival probability approximation:

$$Q(t, T) = \frac{e^{-CDS(t, T)(T-t)} - R}{1 - R}$$

where the CDS level can be obtained from <https://www.investing.com/rates-bonds/unicredit-cds-5-year-eur> and a recovery rate of 40% is assumed.

7. Clearly state all assumptions used in your calculations.
8. Present a table reporting the value of each coupon component, as well as the bond's gross and clean prices. Distinguish between the risk-free and risky components of value.
9. Create a chart displaying the expected cash flows (excluding notional) and provide a short commentary on the results.
10. Compare your estimated fair value with the bond's clean market price as quoted on EuroTLX. Derive the market-implied CDS spread and explain the methodology used. Comment on your findings.
11. Using the historical dataset of EUR IRS swap rates, perform a Principal Component Analysis (PCA) and interpret the resulting factors.
12. Discuss the sensitivity of the bond's fair market value to shifts in the term structure—specifically level, slope, and curvature changes. Analyze and interpret the results.
13. Propose a hedging strategy to protect the portfolio against anticipated yield-curve movements using quoted plain-vanilla swaps. Justify your choice of hedging instruments and explain how hedge ratios are determined.
14. Implement the proposed hedging strategy and discuss its practical limitations.
15. Measure the bond's exposure to changes in CDS spreads.
16. Explain how CDS contracts can be used to hedge credit risk exposure. Describe the implementation of this credit-hedging strategy.
17. Assume that changes in the bond's gross price follow the factor model:

$$\Delta GP(t, T_i) = \beta_{l,i} \Delta l(t) + \beta_{s,i} \Delta s(t) + \beta_{c,i} \Delta c(t) + \beta_{cds,i} \Delta cds(t) + \varepsilon(t)$$

where the principal component factors are uncorrelated (both on time series and cross-section) and normally distributed with zero mean and variances equal to their respective eigenvalues. Estimate the changes in CDS spreads using historical data from <https://www.investing.com/rates-bonds/unicredit-cds-5-year-eur-historical-data>.

18. Using Monte Carlo simulation, generate random changes in the factors and compute the resulting variations in the bond value, $\Delta GP(t, T_i)$. Construct the profit-and-loss distribution and compute the Value at Risk (VaR) and Expected Shortfall (ES) at the 99% confidence level.

19. Compare the Monte Carlo results with the exact formula for the VaR and ES, utilizing the linear relationship between the bond value change and risk factors changes. Illustrate the limits of this approach.
20. Decompose the bond's Value at Risk (VaR) into marginal and component risk contributions from each factor.
21. Decompose the portfolio VaR into marginal and component risk contributions associated with each factor.
22. Summarize your findings in a table reporting the fair values and sensitivities of each bond component and of the selected hedging instruments.
23. Conclude with recommendations for a potential investor based on your analysis. Discuss the limitations of your approach and suggest directions for further research or model enhancement.

MARKET DATA

Deposit rates, IRS and cap volatilities can be found in the Excel sheet MarketData.xlsx

L^AT_EX EDITOR

I strongly recommend (though it is not required) preparing your report using L^AT_EX or a similar typesetting system. User-friendly platforms such as Overleaf (www.overleaf.org) or TeXStudio are highly recommended. Documents produced in L^AT_EX are typically much more professional in appearance than those created in Word, and the insertion of mathematical formulas and tables is considerably easier.

(viii) Non-exempt Offer:	Applicable. An offer of the Notes may be made by UCB GmbH other than pursuant to Article 1(4) of the Prospectus Regulation in the Republic of Italy (during the period commencing on (and including) the first day on which the Notes are traded on MOT and EuroTLX and ending on (and including) the date on which UCB GmbH ceases to carry on active marketing activities in respect of the Notes in the Republic of Italy, which date is expected to fall on or around – 28 June 2024 (the Offer Period). See further paragraph entitled "Terms and Conditions of the Offer" below.
Non-exempt Offer Jurisdictions:	Republic of Italy
Offer Period:	From (and including) the first day on which the Notes are traded on MOT and EuroTLX to (and including), 28 June 2024 the date on which UCB GmbH ceases to carry on active marketing activities in respect of the Notes in the Republic of Italy. An offer of the Notes may be made by UCB GmbH other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy during the Offer Period. The Offer Period is subject to early termination or extension by UCB GmbH in accordance with Issuer and in accordance with the applicable regulations and any adjustments to such period will be set out in one or more notices to be made available on www.unicreditgroup.eu. The offer of the Notes may be withdrawn or extended in whole or in part at any time at the discretion of UCB GmbH in accordance with the Issuer and any such withdrawal or extension will be set out in one or more notices to be made available on www.unicreditgroup.eu.
Financial intermediaries granted specific consent to use the Base Prospectus in accordance with the Conditions in it:	UCB GmbH
General Consent:	Applicable
Other Authorised Offeror Terms conditions to consent:	The Issuer consents to the use of the Base Prospectus in connection with the making of an offer of the Notes to the public requiring the prior publication of a prospectus under the Prospectus Regulation (a "Non-exempt Offer") by UCB GmbH (the "Authorised Offeror") in the Non-exempt Offer Jurisdiction. The Authorised Offeror (i) has the Issuer's consent to use the Base Prospectus in respect of offers of the Notes made in the Non-exempt Offer Jurisdiction provided that it complies with all applicable laws and regulations, and (ii) has the Issuer's consent to use the Base Prospectus in respect of private placements of the Notes that do not subject the Issuer or any affiliate of the Issuer to any additional obligation to make any filing, registration, reporting or similar requirement

		with any financial regulator or other governmental or quasi-governmental authority or body or securities exchange, or subject any officer, director or employee of the Issuer or any affiliate of the Issuer to personal liability, where such private placements are conducted in compliance with the applicable laws of the relevant jurisdictions thereof
(ix)	Prohibition of Sales to EEA Retail Investors:	Not Applicable
(x)	Prohibition of Sales to UK Retail Investors:	Not Applicable
(xi)	EU Benchmark Regulation:	Applicable: Amounts payable under the Notes are calculated by reference to EURIBOR, which is provided by European Money Markets Institute.
	EU Benchmark Regulation: Article 29(2) statement on benchmarks:	As at the date of these Final Terms, the European Money Markets Institute is included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011) (the BMR).

9. TERMS AND CONDITIONS OF THE OFFER

(a)	Offer Price:	The Notes will be offered at the market price which will be determined by UCB GmbH. During the Offer Period, depending on market conditions and subject to the rules and instructions of the MOT and EuroTLX, the Offer Price shall be equal to the Issue Price of the Notes (i.e., the 100 per cent. of the Aggregate Nominal Amount). After the Offer Period, the Notes will be offered at the market price which will be determined by UCB GmbH on a continuous basis in accordance with the market conditions then prevailing. UCB GmbH (in its capacity as appointed liquidity contributor under the MOT or EuroTLX rules) (the Liquidity Contributor) will publish offer prices (and bid prices) at which the Liquidity Contributor is prepared to sell (and purchase) the Notes on the MOT or EuroTLX.
(b)	Conditions to which the offer is subject:	The offer is subject to the admission to listing of the Notes on the MOT and admission to trading on EuroTLX. UCB GmbH in accordance with Issuer may, during the Offer Period, terminate early the Offer Period and immediately suspend the acceptance of additional orders without any prior notice. If the Offer Period is terminated early, a notice to that effect will be made available during normal business hours on www.unicreditgroup.eu . The offer of the Notes may be withdrawn or extended at any time at the discretion of UCB GmbH in accordance with Issuer and any such withdrawal or extension will be set out in one or more notices to be made available during normal business hours on www.unicreditgroup.eu .

(c)	Description of the application process:	Notes may be purchased from any market intermediary approved and admitted to trading on the MOT or EuroTLX by Borsa Italiana S.p.A. (each, an "Authorised Intermediary"), and purchase and settlement of the Notes shall be in accordance with the relevant rules and regulation of the MOT or EuroTLX.

(1) Considering the communication received from the ECB in relation to the 2023 Supervisory Review and Evaluation Process (SREP), in relation to the Leverage Ratio no Pillar 2 Capital Requirement (P2R-LR) is required; moreover, starting from 1st January 2024, due to the fact that UniCredit is not a G-SII anymore, the additional 0.5% buffer is not requested anymore.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Notes may decline in value and that they may sustain a total loss of their investment.

The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the geopolitical tensions

The market environment in which UniCredit operates continues to be affected by high levels of uncertainty for both the short and the medium-term outlook. The economic consequences stemming from the geopolitical tensions, not only in Russia, pushed up inflationary pressures and could continue to unfold increasing uncertainty for the Euro area economy, with potential impact on the performance of the Group. The Russia-Ukraine crisis caused a sharp rise in commodities prices, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. From mid 2022, with inflation building up due to the increase in energy price and the supply disruptions, ECB changed its monetary stance (Deposit Facility rate: -50 bps in June 2022, 0 bps in July, 75 bps in September, 150 bps in October, 200 bps in December, 250 bps in February 2023, 300 bps in March, 325 bps in May, 350 bps in June, 375 bps in July, 400 bps in September) and market repriced interest rate expectations accordingly. Despite subsequently inflation started to record a declining path, the outlook is still surrounded by risks, further tensions on commodity / energy prices cannot be excluded as well as an upsurge in the ongoing Russia-Ukraine conflict and / or an intensification of the tensions in the Middle East. Therefore, the expectations regarding the performance of the global economy remains still uncertain in both the short and medium term. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community the 2022-2024 Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed at that time.

The macro assumptions underlying the Strategic Plan excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurgence of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years).

Risks connected with the Strategic Plan 2022 – 2024

On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called “UniCredit Unlocked” (the **Strategic Plan** or **Plan**) which contains a number of strategic, capital and financial objectives (the **Strategic Objectives**). The Strategic Plan focuses on UniCredit’s geographic areas in which the Issuer currently operates; with financial performance driven by three interconnected levers: cost efficiency, optimal capital allocation and net revenue growth. “UniCredit Unlocked” delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology, leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnected levers. The macro assumptions underlying the Strategic Plan disclosed in December 2021 excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurgence of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) increase return; (v) strengthen solidity thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. On 7th May 2024 UniCredit presented Group results for 1Q24 as well as the update of the guidance for 2024 with no changes in overall strategy but with improved financial targets. UniCredit’s ability to meet the Strategic Objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is hence subject to a number of uncertainties and additional factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives (and latest updated guidance).

Credit risk and risk of credit quality deterioration

The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement.

UniCredit’s Loan Loss Provisions (**LLPs**) decreased by 66.8 per cent Q/Q and increased by 5.5 per cent Y/Y to Euro 103 million in 1Q24. Therefore, the cost of risk decreased by 19 bps Q/Q and increased by 1 bp Y/Y to 10 bps in 1Q24. The Group confirmed the amount of overlays on performing exposures at circa Euro 1.8 billion, which substantially reinforces the Group’s capacity to withstand macroeconomic shocks. As at 31 March 2024, Group gross NPEs were down by 4.0 per cent Y/Y and by 3.4 per cent Q/Q to Euro 12.1 billion in 1Q24 (while as at 31 December 2023 they were equal to Euro 11.7 billion) with gross NPE ratio of 2.7 per cent (flat Y/Y and +0.1 per cent Q/Q). As at 31 March 2024, Group Net NPEs stood at Euro 6.6 billion increased compared to 31 December 2023 which attested at Euro 6.2 billion (Group Net NPE ratio increased compared to 31 December 2023 and is equal to 1.5 per cent).

The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group’s credit exposure may exceed predetermined risk’s levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk

Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight and term deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" (TLTRO) introduced in 2014 and the TLTRO II introduced in 2016.

This liquidity support has approached its maturity in the first quarter of 2024. This resulted in the need for banks to seek alternative sources of long term borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group.

The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100 per cent from 2018 and which was equal to 154 per cent in December 2023, whereas at 30 September 2023 was equal to 157 per cent (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in December 2023 was 130 per cent.

Basel III and Bank Capital Adequacy

The Issuer shall comply with the revised global regulatory standards (**Basel III**) on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 (**BRRD**), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "**BRRD II**" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (**EBA**)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (**MREL**) for credit institutions.

Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Section C – Key Information on the Notes

What are the main features of the Notes?

Type, class and ISIN: The Notes are Dematerialised Floating Rate Senior Notes with Participation and Cap due 12 June 2034. International Securities Identification Number (ISIN): IT0005599110. The Notes are not expected to be rated.

Currency: The currency of this Series of Notes is Euro (€). The Notes have a Specified Denomination of €1,000. The **Maturity Date** of the Notes is 12 June 2034. The aggregate nominal amount of Notes is €20,000,000.

The Status and Subordination (Ranking) of the Notes: The Notes issued on a Senior basis constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer ranking (subject to any obligations preferred by applicable law) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the Senior Notes from time to time (including Non-Preferred Senior Notes and any further obligations subsequently permitted by law to rank junior to the Senior Notes following the Issue Date), if any) of the Issuer, present and future and *pari passu* and rateably without any preference among themselves. This Series of the Notes is issued on a Senior basis.

Each holder of a Note unconditionally and irrevocably waives any right of set-off, netting, counterclaim, abatement or other similar remedy which it might otherwise have, under the laws of any jurisdiction or otherwise, in respect of such Note.

The rights attached to the Notes: The Notes bear a floating interest rate, linked to 3-month EURIBOR *per annum* multiplied by a Participation Factor equal to 160 per cent. with a Maximum Rate of Interest equal to 5.45 per cent. and a Minimum Rate of Interest equal to 0.00 per cent. starting from, and including, 12 June 2024 (the **Issue Date**) up to, but excluding, the Maturity Date, payable in arrear quarterly with each Interest Period (other than the first Interest Period starting from, and including, the Issue Date) starting from, and including, a Specified Interest Payment Date to, but excluding, the next Specified Interest Payment Date. **Specified Interest Payment Date** are 12 March, 12 June, 12 September and 12 December in each year starting on 12 September 2024, up to and including 12 June 2034 subject to the Following Business Day Convention. In addition to the rights to payment of interest and principal amounts specified in these Final Terms, such rights include:

Taxation: Where an Italian resident Noteholder is the beneficial owner of the interest, premium and other income relating to the Notes and is (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected; (b) a non-commercial partnership (with the exception of general partnership, limited partnership and similar entities); (c) a non-commercial private or public institution; or (d) an investor exempt from Italian corporate income taxation (unless the Noteholders has opted for the application of the *risparmio gestito* regime), interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a substitute tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent. In the event that the Noteholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Events of Default: The terms of the Senior Notes will contain, among others, the following event of default:

- UniCredit becoming subject to *Liquidazione Coatta Amministrativa* as defined in Legislative Decree No. 385 of 1 September 1993 of the Republic of Italy (as amended from time to time);

upon of the occurrence of the above, any holder of the Notes may, by written notice at the specified office of the Paying Agent for the Dematerialised Notes, effective

upon the date of receipt thereof by the Paying Agent for the Dematerialised Notes, declare any Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at its Early Redemption Amount together with accrued interest (if any) to the date of repayment, without presentment, demand, protest or other notice of any kind.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders of such Notes to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law: Italian law.

Redemption:

Subject to any purchase and cancellation or early redemption, the Notes will be redeemed on the Maturity Date at par.

The Notes may be redeemed early at the occurrence of a Tax Event or at the occurrence of a MREL Disqualification Event at par.

Transferability: The Notes may not be transferred prior to the Issue Date.

Where will the Notes be traded?

Application has been made by the Issuer (or on its behalf) for the Notes to be listed on the Electronic Bond Market organised and managed by Borsa Italiana S.p.A. (MOT) and admitted to trading on EuroTLX organised and managed by Borsa Italiana S.p.A. (Euro TLX).

What are the key risks that are specific to the Notes?

There are certain risks associated with investing in the Notes. These risks include:

Limited Events of Default and remedies

The circumstances upon which the Noteholders may declare the Notes to be immediately due and payable are limited: in particular, if the Issuer is subject to *Liquidazione Coatta Amministrativa*. In this case, the right of acceleration of principal can be restricted and the sole remedy available to Noteholders for recovery of amounts owing in respect of any of the Notes will be the institution of proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it;

Restricted early redemption and purchase

Any early redemption or purchase of Notes is subject to compliance by the Issuer with any conditions to such redemption or repurchase prescribed by the then applicable relevant regulations, including any requirements applicable to such redemption or repurchase due to the qualification of such Notes at such time as eligible liabilities available to meet the MREL Requirements, the prior approval of the Relevant Resolution Authority where applicable from time to time under the applicable Relevant Regulation or the decision of the Issuer of not exercising the option to redeem the Notes. In addition, the Issuer has the right to redeem all Notes upon the occurrence of a MREL Disqualification Event, and there can be no assurance that Noteholders will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investment in the Notes;

Modification without Noteholders' consent

In case of MREL Disqualification Event, Tax Event or to enforce the provisions related to the statutory bail-in power, the Issuer may, subject to giving any notice required to be given to, and receiving any consent required from the Competent Authority and/or as appropriate the Relevant Resolution Authority, vary the terms of the Notes and in such case no assurance can be given as to whether any of these changes will negatively affect any particular Noteholder;

Application of the general bail-in tool

The Notes may be subject to write-down or conversion into equity capital instruments on any application of the general bail-in tool, which may result in the relevant holders losing some or all of their investment. The exercise of the general bail-in tool, or any other power under the BRRD or any suggestion or perceived suggestion of such exercise could, therefore, materially adversely affect the rights of holders of the Notes, the price or value of their investment in any such Notes and/or the ability of the Issuer to satisfy its obligations under such Notes;

Dematerialised Notes

In no circumstances would physical documents of title be issued in respect of the Notes issued in dematerialised form. While the Notes are represented by book entries, investors will be able to trade their beneficial interests only through Monte Titoli and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli. As the Notes are held in dematerialised form with Monte Titoli, investors will have to rely on the procedures of Monte Titoli and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication to the Issuer;

Waiver of set-off

As a result of the waiver of set-off, each Noteholder unconditionally and irrevocably waives to any right of set-off, netting, counterclaim, abatement or other similar remedy which it might otherwise have, under the laws of any jurisdiction or otherwise, in respect of such Note;

The regulation and reform of “benchmarks”

The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”. In particular, the Rate of Interest of the Notes is 3-month EURIBOR multiplied by a Participation Factor, with a Maximum Rate of Interest and a Minimum Rate of Interest. Investors should be aware that, if EURIBOR was discontinued or otherwise unavailable, the rate of interest on the Notes will be determined for the relevant period by the fallback provisions applicable to such Notes, which could have an adverse effect on the value or liquidity of, and return on, the Notes.

Changes in Italian laws or administrative practice

Changes in Italian laws or administrative practice and/or any judicial decision could materially adversely impact the value of any Notes affected by it;

Risks related to the market generally

Credit ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. The Issue Price of the Notes includes implicit fees that may not be taken into account for the purposes of determining the price of the Notes in the secondary market and could result in a difference between the Issue Price, the theoretical value of the Notes and/or the actual bid/offer price quoted by any intermediary in the secondary market. Any such difference may have an adverse effect on the value of the Notes, particularly immediately following the offer and the issue date relating to such Notes, where any such fees may be deducted from the price at which such Notes can be sold by the initial investor in the secondary market. In addition, an active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Furthermore, if an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes. Moreover, the repayment of the nominal amount of the Notes at maturity does not protect investors from the risk of inflation. Consequently, the real return of the Notes, which is the adjusted return taking into account the inflation rate measured during the life of the Notes themselves, could be negative. In addition, the Notes are subscribed by an affiliate of the Issuer for resales on the secondary market thereafter on the basis of investors' demand. Accordingly, in these cases investors purchasing the Notes should be aware that there may not be a liquid secondary market for the relevant Notes immediately. Even if a market does develop subsequently, it may not be liquid. Furthermore, investors should note that when subscribing the Notes the Dealer may receive in consideration underwriting commissions and selling concessions. In addition, the Issuer or one of its affiliates may act market maker, liquidity provider or

specialist or perform other similar roles in connection with the Notes, including *inter alia* acting as intermediary performing the investment service of execution of orders; in such cases, the Issuer or one of its affiliates can purchase the Notes issued by itself. In light of the above, circumstances potential conflicts of interest may exist between the Issuer and/or its affiliates acting in such capacity of owners/holders of the Notes and/or market maker, liquidity provider or specialist or intermediary on the one hand and investors in the Notes on the other. The relevant market maker, liquidity provider or specialist may act by virtue of agreements entered into with the Issuer and/or the Dealer/Distributor, pursuant to which such subjects undertake to sell the Notes on the secondary market at a price calculated on the basis of predetermined conditions and/or for a maximum predetermined quantity. Where the liquidity of the Notes is supported by one or more subjects operating on the secondary market, there is a risk that the purchase price of the Notes is influenced in a prevalent manner by the activity of such subjects if the purchase price is formulated on the basis of pre-determined criteria; in such a case, in fact, the price may not reflect all the market variables and may not be indicative of the same and may, therefore, be different than the price that would have been determined independently on the market. The Issuer reserves the right to cancel some or all of the Notes held by the Issuer itself or by re-purchasing them from the relevant Dealer at any time prior to the final maturity of the Notes. Accordingly, the aggregate nominal amount or number of Notes outstanding at any time may be significantly less than the nominal amount outstanding on the Issue Date, and this could have a negative impact on the investor's ability to sell the Notes in the secondary market. While this risk applies to all Notes, it may be particularly the case with regard to Notes intended to be/or listed on Borsa Italiana S.p.A. and admitted to trading on the MOT and EuroTLX.

Section D – Key Information on the Offer of the Notes to the Public and/or Admission to Trading on a Regulated Market

Are the Notes being offered to the public as part of a Non-Exempt Offer?

Consent: Subject to the conditions set out below, the Issuer consents to the use of this Base Prospectus in connection with a Non-exempt Offer of Notes by UCB GmbH and any financial intermediary which is authorised to make such offers under applicable legislation implementing the Markets in Financial Instruments Directive (Directive 2014/65/EU) and publishes on its website the following statement (with the information in square brackets being completed with the relevant information):

*"We, [insert legal name of financial intermediary], refer to the offer of [insert title of relevant Notes] (the Notes) described in the Final Terms dated [insert date] (the **Final Terms**) published by UniCredit S.p.A. (the **Issuer**). In consideration of the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Notes in [specify relevant State(s)] during the Offer Period and subject to the other conditions to such consent, each as specified in the Base Prospectus, we hereby accept the offer by the Issuer in accordance with the Authorised Offeror Terms (as specified in the Base Prospectus), and confirm that we are using the Base Prospectus accordingly."*

Offer period: The Issuer's consent referred to above is given for Non-exempt Offers of Notes during the offer period for the issue specified below (the **Offer Period**)."

Conditions to consent: The conditions to the Issuer's consent (in addition to the conditions referred to above) are that such consent: (a) is only valid during the Offer Period; and (b) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Notes in Italy. The Issuer consents to the use of the Base Prospectus in connection with the making of an offer of the Notes to the public requiring the prior publication of a prospectus under the Prospectus Regulation (a **Non-exempt Offer**) by UCB GmbH (the **Authorised Offeror**) in the Non-exempt Offer Jurisdiction. The Authorised Offeror (i) has the Issuer's consent to use the Base Prospectus in respect of offers of the Notes made in the Non-exempt Offer Jurisdiction provided that it complies with all applicable laws and regulations, and (ii) has the Issuer's consent to use the Base Prospectus in respect of private placements of the Notes that do not subject the Issuer or any affiliate of the Issuer to any additional obligation to make any filing, registration, reporting or similar requirement with any financial regulator or other governmental or quasi-governmental authority or body or securities exchange, or subject any officer, director or employee of the Issuer or any affiliate of the Issuer to personal liability, where such private placements are conducted in compliance with the applicable laws of the relevant jurisdictions thereof.

AN INVESTOR INTENDING TO PURCHASE OR PURCHASING ANY NOTES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER.

Under which conditions and timetable can I invest in these securities?

The Notes will be offered at the market price which will be determined by UCB GmbH (the **Offer Price**). During the Offer Period, depending on market conditions and subject to the rules and instructions of the MOT and EuroTLX, the Offer Price shall be equal to the Issue Price of the Notes (i.e., the 100 per cent. of the Aggregate Nominal Amount). After the Offer Period, the Notes will be offered at the market price which will be determined by UCB GmbH on a continuous basis in accordance with the market conditions then prevailing. UCB GmbH (in its capacity as appointed liquidity contributor under the MOT and EuroTLX rules) (the **Liquidity Contributor**) will publish offer prices (and bid prices) at which the Liquidity Contributor is prepared to sell (and purchase) the Notes on the MOT and EuroTLX. The Notes will be offered to eligible counterparties, professional clients and retail clients by way of a public offering through financial intermediaries. The Notes will be offered during the offer period: from (and including) the first day on which the Notes are traded on MOT and EuroTLX to (and including), 28 June 2024 the date on which UCB GmbH ceases to carry on active marketing activities in respect of the Notes in the Republic of Italy (the **Offer Period**). An offer of the Notes may be made by UCB GmbH other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy during the Offer Period. The Offer Period is subject to early termination or extension by UCB GmbH in accordance with Issuer and in accordance with the applicable regulations and any adjustments to such period will be set out in one or more notices to be made available on www.unicreditgroup.eu. The offer of the Notes may be withdrawn or extended in whole or in part at any time at the discretion of UCB GmbH in accordance with the Issuer and any such withdrawal or extension will be set out in one or more notices to be made available on www.unicreditgroup.eu.

The offer is subject to the admission to listing of the Notes on the MOT and admission to trading on EuroTLX. UCB GmbH in accordance with Issuer may, during the Offer Period, terminate early the Offer Period and immediately suspend the acceptance of additional orders without any prior notice. If the Offer Period is terminated early, a notice to that effect will be made available during normal business hours on www.unicreditgroup.eu.

Notes may be purchased from any market intermediary approved and admitted to trading on the MOT and EuroTLX by Borsa Italiana S.p.A. (each, an "Authorised Intermediary"), and purchase and settlement of the Notes shall be in accordance with the relevant rules and regulation of the MOT and EuroTLX.

The Notes will be subscribed by UCB GmbH, issued by the Issuer on the Issue Date and held by UCB GmbH in inventory. Investors may purchase the Notes on MOT and EuroTLX by payment of the purchase price to an Authorised Intermediary. Purchase and sale contracts concluded on the MOT market and EuroTLX shall be settled on the second business day following their conclusion, subject to and in accordance with the applicable MOT and EuroTLX rules.

No dealings in Notes may take place prior to the first day of trading of the Notes on MOT and EuroTLX.

The distributor is UniCredit Bank GmbH, acting through its Milan Branch (Piazza Gae Aulenti 4, Tower C 20154 Milan Italy) (**UCB GmbH**).

Total commission: 1.69 per cent. of the Aggregate Nominal Amount. The costs contained in the Offer Price of the Notes as of the date of these Final Terms include the remuneration of UCB GmbH.

Why is this prospectus being produced?

Reasons for the offer and use of proceeds: for its general corporate purposes, which include making a profit.

Indication of most material conflicts of interest pertaining to the offer or the admission to trading: Save for the fees payable to the Liquidity Contributor, also acting as arranger of the Notes, and save for the fact that the Liquidity Contributor is part of the Issuer's Group, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. Furthermore, the Liquidity Contributor is the Dealer, distributor on secondary market, calculation agent and market maker in connection with the Notes. The Liquidity Contributor and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

1. Cos'è questo prodotto?

Tipo

Le Obbligazioni sono obbligazioni non subordinate (obbligazioni senior). Pertanto, gli obblighi nascenti da tali obbligazioni a carico dell'Emittente non sono subordinati ad altre passività dello stesso (fatta eccezione per le passività garantite o privilegiate).

Termine

Il Prodotto ha una durata fissa e sarà esigibile alla Data di Scadenza.

Obiettivi

Le Obbligazioni maturano, a partire dalla Data di Regolamento, interessi a tasso variabile indicizzati ad un tasso di riferimento (Parametro di Riferimento).

Le Obbligazioni prevedono le seguenti caratteristiche: (i) la presenza di un tasso massimo (Cap o Tasso Massimo) e (ii) la presenza di un fattore di partecipazione al Parametro di Riferimento (Fattore di Partecipazione) superiore al 100%.

Le cedole variabili così calcolate saranno pagate con una frequenza trimestrale, ciascuna alla relativa Data di Pagamento degli Interessi.

L'investimento nelle Obbligazioni ipotizza un'aspettativa dell'investitore di aumento dei tassi di interesse di mercato, nei limiti del Cap.

Il Prezzo di Rimborso sarà pari al 100% del Valore Nominale.

L'ammontare degli interessi, ad una determinata Data di Pagamento degli Interessi, sarà determinato su base annuale e proporzionalmente a ciascun periodo di calcolo degli interessi (pro rata basis).

Mercato di destinazione

Il prodotto è destinato ad investitori al dettaglio che perseguono l'obiettivo in linea generale di conservazione del patrimonio/ottimizzazione del patrimonio con un orizzonte di investimento a lungo termine. Il presente prodotto è destinato a clienti con conoscenze e/o esperienze di livello base su prodotti finanziari. L'investitore non è in grado di sostenere alcuna perdita del capitale investito.

2. Quali sono i rischi e qual è il potenziale rendimento?

Indicatore di Rischio

L'indicatore sintetico di rischio è una guida per il livello di rischio di questa Obbligazione rispetto ad altri prodotti. Tale indicatore illustra le probabilità di perdita del capitale per l'investitore a causa dell'andamento dei mercati o se l'Emittente, per effetto di un deterioramento della sua solvibilità ovvero versi in uno stato di dissesto, non sia in grado di corrispondere gli importi dovuti in relazione alle Obbligazioni. L'Obbligazione è stata classificata, in termini di rischio, 3 su 7, che rappresenta la classe di rischio medio-bassa. In generale, 1 corrisponde alla classe di rischio più bassa, 2 alla classe di rischio bassa, 3 alla classe di rischio medio-bassa, 4 alla classe di rischio media, 5 alla classe di rischio medio-alta, 6 alla classe di rischio seconda più alta e 7 alla classe di rischio più alta.

Scenari di performance

Il possibile rimborso dipenderà dall'andamento futuro dei mercati, che è incerto e non può essere previsto con esattezza. Gli scenari riportati sono illustrazioni basate sui risultati passati e su alcune ipotesi. Nel futuro i mercati potrebbero avere un andamento molto diverso.

Periodo di detenzione raccomandato		12.06.2034 (Scadenza)	
Esempio di investimento		10.000 EUR	
Scenari		In caso di uscita dopo 1 anno	In caso di esercizio il 12.06.2034 (Scadenza)
Minimo	9.892 EUR. Il rendimento minimo è garantito solo in caso di rimborso alla scadenza e se l'Emittente è in grado di adempiere le sue obbligazioni derivanti dal Prodotto (cfr. "3. Cosa accade se UniCredit S.p.A non è in grado di corrispondere quanto dovuto?")		
Scenario di stress	Possibile rimborso al netto dei costi	10.150 EUR	10.504 EUR
	Rendimento medio per ciascun anno	1,5%	0,6%
Scenario sfavorevole	Possibile rimborso al netto dei costi	10.310 EUR	14.440 EUR
	Rendimento medio per ciascun anno	3,1%	4,3%
Scenario moderato	Possibile rimborso al netto dei costi	10.360 EUR	14.537 EUR
	Rendimento medio per ciascun anno	3,6%	4,3%
Scenario favorevole	Possibile rimborso al netto dei costi	10.403 EUR	14.597 EUR
	Rendimento medio per ciascun anno	4%	4,4%

Le cifre riportate comprendono tutti i costi del prodotto in quanto tale, ma possono non comprendere tutti i costi da voi pagati al consulente o al distributore. Le cifre non tengono conto della vostra situazione fiscale personale, che può incidere anch'essa sull'importo del rimborso. Lo scenario di stress indica quale potrebbe essere l'importo rimborsato in circostanze di mercato estreme. Gli scenari illustrati rappresentano risultati possibili calcolati sulla base di simulazioni.

3. Cosa accade in caso di insolvenza di UniCredit S.p.A?

L'investimento in questo prodotto è soggetto al rischio di credito per il sottoscrittore, vale a dire all'eventualità che l'Emittente, per effetto di un deterioramento della sua solvibilità, non sia in grado di corrispondere gli importi dovuti in relazione al prodotto. Tale rischio sussiste altresì nel caso in cui l'Emittente versi in uno stato di dissesto ovvero rischio di dissesto, in caso di fallimento, insolvenza o sovra-indebitamento. In caso di insolvenza dell'Emittente, l'investitore sarà un mero creditore chirografario e non beneficerà di garanzia alcuna per la soddisfazione del proprio credito nei confronti dell'Emittente. Ai sensi della normativa vigente in materia di "bail-in", le autorità di risoluzione competenti potranno applicare determinati strumenti di risoluzione. In particolare, con l'applicazione del "bail-in", gli investitori si ritroverebbero esposti al rischio di veder ridotto, azzerato, ovvero convertito in capitale il proprio investimento, in via permanente, anche in assenza di una formale dichiarazione di insolvenza dell'Emittente. Questo prodotto non beneficia della copertura del Fondo Interbancario di Tutela dei Depositi.

4. Quali sono i costi?

La persona che fornisce consulenza sul Prodotto o che lo vende potrebbe addebitare altri costi, nel qual caso fornirà informazioni su tali costi, illustrandone l'impatto sull'investimento.

Andamento dei costi nel tempo

Le tabelle mostrano gli importi prelevati dall'investimento per coprire diversi tipi di costi. Tali importi dipendono dall'entità dell'investimento, dalla durata della detenzione del prodotto. Gli importi sono qui riportati a fini illustrativi e si basano su un importo esemplificativo dell'investimento e su diversi possibili periodi di investimento. Si è ipotizzato quanto segue:

- Nel primo anno recupero dell'importo investito (rendimento annuo dello 0%). Per gli altri periodi di detenzione si è ipotizzato che il prodotto abbia la performance indicata nello scenario moderato.
- 10.000 EUR di investimento

	In caso di uscita dopo un anno	In caso di esercizio il 12.06.2034 (Scadenza)
Costi totali	239 EUR	120 EUR
Incidenza annuale dei costi*	2,4%	0%

*Dimostra come i costi riducano ogni anno il rendimento nel corso del periodo di detenzione. Ad esempio, se l'esercizio avviene nel periodo di detenzione raccomandato, si prevede che il rendimento medio annuo sarà pari al 4,3% prima dei costi e al 4,3% al netto dei costi.

Composizione dei costi

Costi una tantum di ingresso o di uscita		In caso di uscita dopo un anno
Costi di Ingresso	Questi costi sono già inclusi nel prezzo pagato	120 EUR
Costi di uscita	Questi costi sono già inclusi nel prezzo che ricevete e si applicano solo in caso di esercizio prima della scadenza. Qualora teniate il Prodotto fino alla scadenza, non si applicano costi di uscita.	120 EUR

5. Per quanto tempo è consigliato mantenere l'investimento? È possibile disinvestire anticipatamente?

Periodo di detenzione raccomandato: fino alla Data di Scadenza

Il periodo di detenzione raccomandato tiene conto dell'obiettivo del prodotto, di cui al punto 1. "Che cosa è questo prodotto?" che precede. In particolare, si rappresenta che tale obiettivo si verifica solo se il prodotto è detenuto fino alla scadenza. Il prodotto non prevede rimborsi automatici anticipati, fatta salva la facoltà di vendere l'Obbligazione sul relativo mercato di negoziazione al prezzo corrente di mercato.

Mercato	BIT (MOT), EuroTLX	Lotto Minimo	EUR 1.000
Ultimo giorno di negoziazione	07.06.2034		

In situazioni di mercato inusuali o nell'ipotesi di problemi tecnici o interruzioni, l'acquisto e/o la vendita dell'Obbligazione potrebbero essere temporaneamente compromessi o non essere del tutto possibili.
